

Ink Production Line

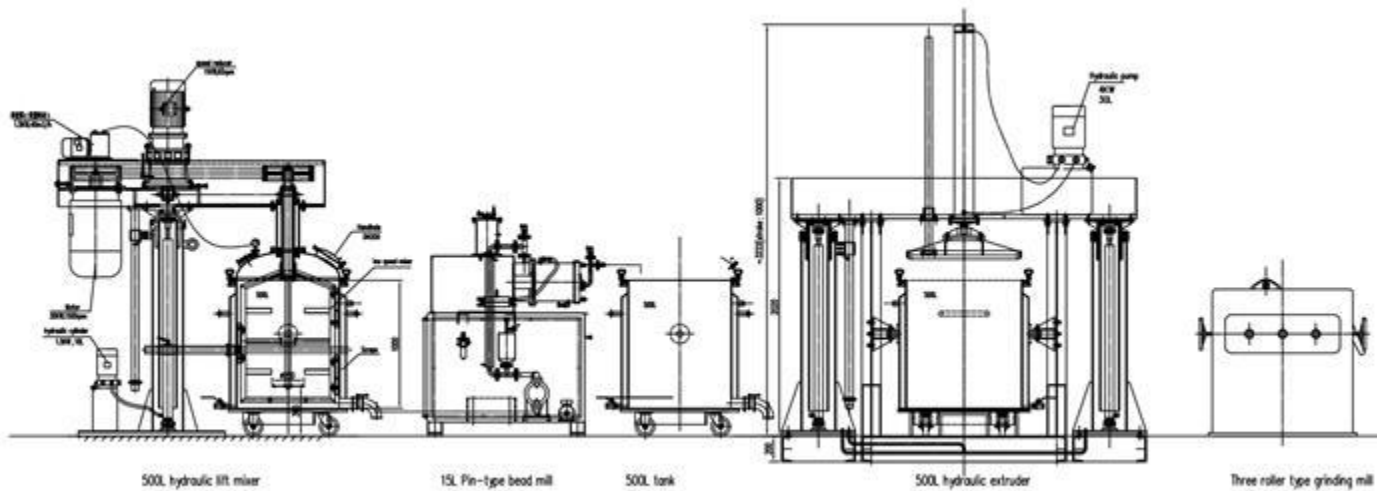

ELE produce high speed disperser, horizontal bead mill, mixing reactor, filter and filling machine, the whole production line for ink manufacturing.

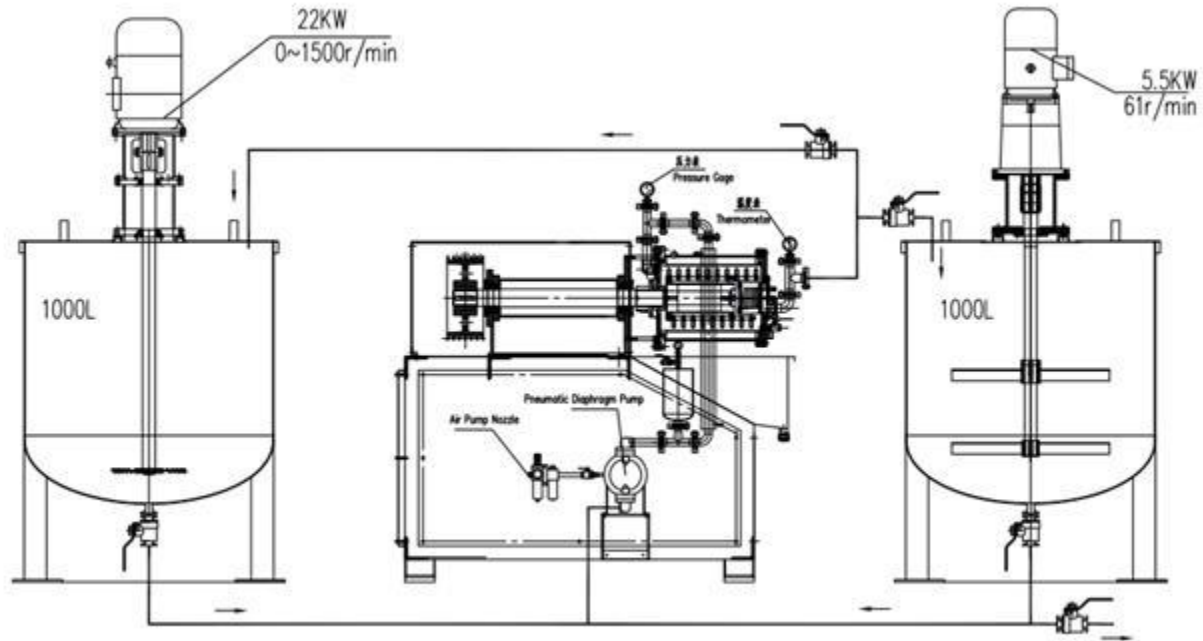

Because we know well that the worth of the machine is that the customer can enjoy the efficiency, quality and the success, so we derive the essence among the colleagues, at the meanwhile even go after reliability, high efficiency, and the stable. The production line has been exported to global world, like American, Europe, Canada, Japan, Asia, Australia, Middle east...etc. Include flexo ink, offset ink, printing ink, gravure ink, UV ink, silk screen ink, digital printing ink...etc

Production flow for Ink production line

1) Production line for offset ink

2) Production line for flexo ink

Production Photos

- 1) Pre-Mixing System
- 2) Horizontal bead mill to reduce the particle size
- 3) Mixing Tank

Professional technical supports & Processing Machines

Our engineers are around 20years rich experience in this area, professional skills and stable processing.

We have lathes, grinder, drilling machine, boring machine, polishing machine, milling machine...etc.
